

30 DEC 1983

MEMORANDUM FOR: Chief, Support Branch, Registrar and Support
Division, OMS

STAT

FROM:

[REDACTED]
New Building Project Office, OL

SUBJECT: Space Requirements: Dispensary Room

1. During a meeting on 9 November 1983 between yourself and the New Building Project Office, an additional OMS space requirement was requested. This new space requirement consisted of a 700-ft dispensary room to be located in the new building and to be supplied as follows:

- a. Nurses office
- b. Terminal hookup
- c. Capability to use a two-way radio with the existing Headquarters Building
- d. Secure telephone
- e. 15-cubic foot refrigerator
- f. One toilet
- g. Utility room (sink and supplies)
- h. Reception area
- i. To be located either on the first or fourth level

2. Since there is a dispensary room in the existing building, it might be more efficient to provide one space that is central to both buildings. This would eliminate the need for more personnel and equipment. Please look into this possibility.
